## MY LAST ISSUE? and something on elections

It has been my privilege to man the helm of the USS Grid leaks for the past few months. As things stand, the secretary has the responsibility for sending out meetings notices, correspondence, and meeting minutes. I would suggest that the position of Secretary be divided into two jobs. Recording secretary would take care of the meeting minutes (and should be someone who can attend all meetings) and a Corresponding secretary who would be responsible for external communications. I would also like to throw out at this time the idea of a separate editor for the Grid Leaks (a monumental task). Also, how about a standing Advertising/publicity committee? Also, if you have any desire to run for any office in the club, be sure to speak up. No one can read your mind and so its up to you to make your wishes known. SELL THOSE SHAP AND SHOP tickets.

## MORE PUBLICITY FOR US

Henry Ruh WNSHEE has been asked by SQ magazine (and of course will submit to other mags) an article with pictures of our swap and shop and of our system to get all the publicity we are getting. Michael Van Den Branden WABUTB publisher and editor of the new magazine RPT, will be at our swap and shop. Mr. Branden was formerly with QJ and FM magazines.

Ed. note: I hope someone will write an article for all the area papers, as a news item, about our swap and shop, and send them pictures, or invite them to send a photographer to cover this event. From all indications it should be a whopper. I don't believe that any other club has ever had as much advance publicity for a swap and shop as we have, as it speaks well for our image, and the long hours put in by all those who have contributed towards what assuredly will be a successful amateur radio happening. ITS HERE! ITS AT. I am sure that thank-you letters will be sent to those radio and TV stations which have most graciously donated their time and energy to help us, Especially WKED ch 50 who did our slide artwork.
